Business alliance with the Japan Single Mother Support Association

~Single motherChild supportSupport job search~

We have formed a business alliance with the Japan Single Mother Support Association (Headquarters: Yokohama City, Kanagawa Prefecture, Representative Director Michiko Enari, hereinafter referred to as the "Association"), which aims to create a society where women can work comfortably while raising children.

After releasing the service "Child Support Guarantee Plus" that supports single mothers, we have received consultations and applications from many people.

By forming a business alliance with the Japan Single Mother Support Association, we will spread our services to members of the Association, and work with the Association to search for jobs so that single mothers can play an active role and raise children with peace of mind. We will support and aim for an environment where single parents and children can become independent together.

■ About the Japan Single Mother Support Association

It is a support body aiming to create a society where women can work comfortably while raising children, based on the three concepts of "cultivating the ability to earn money", "community that can sympathize with each other" and "happiness of remarriage".
